Liquidity Coverage ratio		607	176	1,745			440	

Your company has taken several prudent steps to ensure ample liquidity. The prominent drivers of the LCR are the outflows on account of debt servicing and inflows on account of standard repayments and NPA recovery. The surplus funds available are majorly deployed in liquid mutual funds, government securities(G-Sec/Treasury Bills), commercial papers and other money market instruments as per the Board approved policy. Its an endeavour of your company to maintain LCR comfortable and within the stipulated norms.
